DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 4-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4, the constant pressure reservoir is not seen as having a constant pressure. During the power stroke the pressure in line 7 will increase because of the force of the piston to the crankshaft. The increased pressure will open valve 23. While the pressure will force piston 25 inwardly against a spring, the pressure will still rise in chamber 24. During the intake stroke the hydraulic pressure in line 7 will drop, hence pressure will drop in chamber 24. Applicant is advised to delete the reference to constant pressure reservoir and set forth the structure shown in figure 2.

Figure 2 shows number 20 pointing to the entire structure, which includes hydraulic fluid reservoir 24. However, claim 5 presents the hydraulic reservoir as being separate from the constant pressure reservoir.

Allowable Subject Matter

Claims 4-6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3747

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
